

# Pathway Enrichment Analysis Summary

Top Enriched Pathways from GO Biological Process and KEGG

Database

GO Biological Process

KEGG Pathway

Pathway / Biological Process

CNS Development

Brain Development

Cellular Hypotonic Response

Enteroendocrine Cell Diff.

Cardiac Muscle Hypertrophy

Hypotonic Response

Cellular Osmotic Stress

Vascular Permeability

Hippo Signaling

AMPA Receptor Regulation

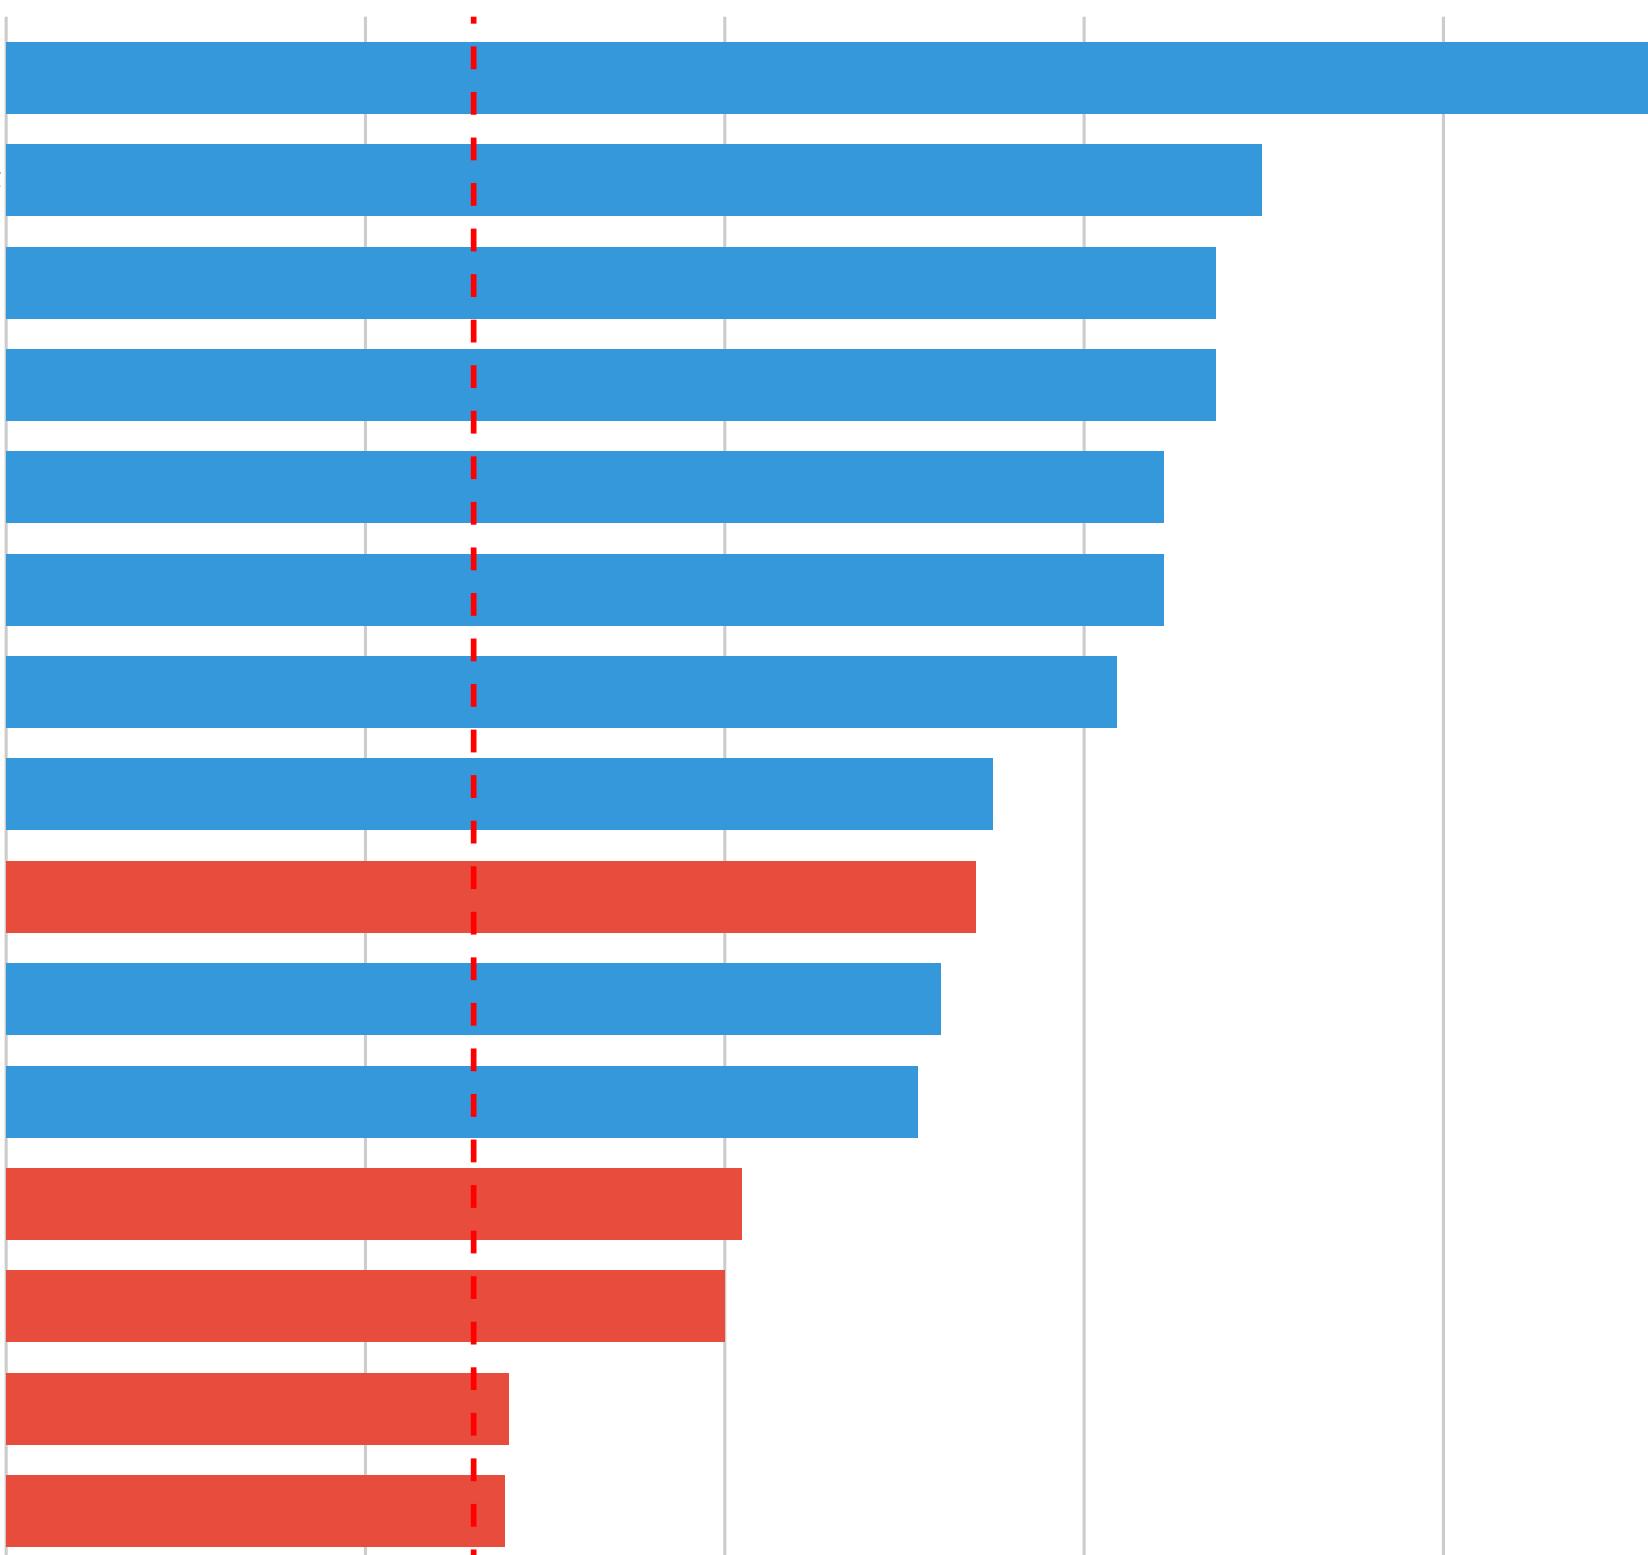

Blood Pressure Regulation

Maturity Onset Diabetes

Cellular Senescence

Fluid Shear Stress

Calcium Signaling

Red dashed line:  $p = 0.05$  significance
